To the patients of Southeastern Endocrine & Diabetes (SEED)

Dear Patients,

After 40 years in practice, and the onset of some recent health issues, I have decided it is time to retire. This decision wasn't easy, and please know it was made with careful consideration for the well-being of both our patients and our team. Effective October 31, 2024, Southeastern Endocrine & Diabetes will be closing. Our last day seeing patients will be Friday, September 13, 2024. My staff and I will miss all of you whom we have known for many, many years through office visits, hospital visits, Diabetes School weekends and Diabetes Camp.

On Saturday, July 27 from 10:00 a.m. until 2:00 p.m. we will have an open house. The open house is meant to allow us a chance to say goodbye to each other and begin the orderly transfer of your care to other physicians. Medical examinations will not be performed that day, but we will have staff on site to enter requests for refills and help you sign releases for record requests.

As we make this transition, we want to ensure that your medical needs are addressed appropriately. To help you continue the care you will need, we will be happy to provide your new Endocrinologist with copies of your records. Once you have identified a new physician to receive your records, you may request them by logging in to your patient portal and sending us a message with that doctor's contact information. You can also stop by the office during business hours to sign the release or call the office before September 30, 2024. Records can be requested after the office closes by calling 678-325-2250.

Though I am retiring from clinical practice, I will continue to be involved in my research practice, Endocrine Research Solutions (ERS) in its current location. Jessica Tapia, Ellen Medved, Tabby Sapp and Korie Miles will also continue at this facility. If you are interested in finding out more about trials or would like to participate, please call them at 678-878-4750.

Dr. Siddiqui will be opening his own practice in September, named Peachtree Endocrinology. If you have a scheduled appointment with him after September 13, you will have the same scheduled appointment date and time at his new location: Peachtree Endocrinology, Roswell Business Center, 11660 Alpharetta Highway, Building 600, Suite 600, Roswell GA 30076. Phone (470) 913-7350, www.peachendocrine.com. For continuity of care, we encourage Dr. Siddiqui's patients to follow him to his new practice.

Donni Jester- will be joining Dr. Haridas at Enhanced Endocrinology effective October 1, 2024 at 5871 Glenridge Dr. Ste 115 Atlanta, GA 30328 phone 404-480-4486. If you have a

future visit scheduled with Donni in our Southeastern Endocrine office starting 10/1/2024 your visit should remain scheduled at the same time and date at the location above for Enhanced Endocrinology you should receive an appointment reminder a few days before your appointment to conform. If you don't please reach out to that office to confirm or visit www.Enhancedendocrinology.com to schedule. You may make future appointments with Donni Jester by visiting the website www.enhancedendocrinology.com

Eileen Borkovich – We know where Eileen is going but she has asked us to wait a few days to announce it. Please keep checking back for the update.

Michael Grossman will be leaving Southeastern Endocrine and Diabetes on August 9th, 2024. As you know our practice is closing and we promised to inform you where your provider will be going. Michael Grossman has made the decision to go with Dr. Siddiqui to his new practice Peachtree Endocrinology Roswell Business Center 11660 Alpharetta Highway, Building 600, Suite 600, Roswell, GA 30076 Phone (470) 913-7350, [www. peachendocrine.com](http://www.peachendocrine.com). He will begin seeing patients at that location in November. At this time, you may continue to send refills and request appointments the way that you currently contact SEED. After September 30th, you can see Dr. Siddiqui at his new office until Michael starts in November. If you have any questions, please let us know. If you want your medical records sent to Peachtree Endocrine, please let us know. Thank you and keep checking our website for more updates.

Our other medical providers, Erin Dever, and Jackie Bassong will stay within the community and continue to care for our patients. However, we do not yet know in what capacity or location. You can continue to check our website, www.seedreed.com for updates on where they will be practicing.

Below we have provided a list of other Endocrinology practices in the area that are accepting new patients. Please verify which ones are accepting your current health plan.

Our intention is to give you enough time to plan for a smooth transition for your medical care. I want to express my gratitude for allowing SEED to be a part of your healthcare team over the years. It has been a privilege to take care of you and your family. I wish you all the best as we all move forward to another chapter of our lives. I will miss you all more than you know.

Yours Sincerely,

Chip John H. Reed III M.D.
